

BoConcept launches co-operation with Ungdommens Vel

BoConcept focuses on CSR (Corporate Social Responsibility) and launches a list called “Initiatives for life” in their new catalogue. Initiatives meant to do things differently and better. “Because taking care of our planet and each other is a goal we must never give up on”, writes BoConcept. The co-operation with Ungdommens Vel is mentioned in the catalogue – which is printed in 2.4 mill copies and distributed in 46 countries. The furniture donations already did a change for social vulnerable children and young adults at several of the institutions at Ungdommens Vel. See more about BoConcept on www.boconcept.com and see their online catalogue [here](#). “The stronger ones have a responsibility to help where ever possible”, says CEO at BoConcept Viggo Mølholm in the annual report of Ungdommens Vel.
